Pseudo-Western Architecture in Tohoku District

Contact: Associate Prof. Junichiro HIGAYA
          022-795-5025 / junichiro.higaya.d7@tohoku.ac.jp
Capacity: 12
Schedule: 2\textsuperscript{nd} Semester, Thursday, 5\textsuperscript{th} Period
The First Lecture; Oct. 3, 16:30-
Place: Building of Civil Engineering and Architecture, Room 104
Summary:
In Tohoku district, particularly in Yamagata prefecture, there are many pseudo-Western Architectures, which were built after the opening of the Country in nineteenth century by local carpenters. In this class, we aim to discuss the relationship between Japanese design and Western design, through visiting these buildings and considering the historical context at that time.
