

Fabrication of a Biosensor Patch

Prof. Matsuhiko Nishizawa, Assistant Prof. Daigo Terutsuki & Hiroya Abe
022-795-7003 nishizawa@tohoku.ac.jp
3rd quarter, 4 students are recruited

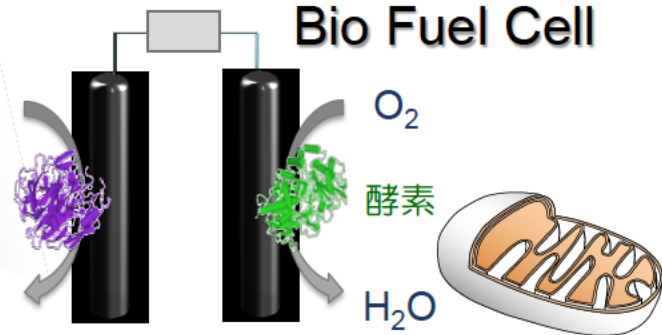

Healthcare, Quality Management

Microneedle Array

Bio Fuel Cell

Students will experience the fabrication of a biosensor patch by using a microneedle array and/ or enzymatic biofuel cells. The water and sugar content in fruits will be measured by the fabricated sensor patch.
