

Practical Training for being Science Writer

~ Creating Web Page of Your Favorite Laboratory ~

School of Engineering
Center Square
Kanri-to 3F
Mitsubishi FUSO Laboratory

Students will learn techniques of journalists and editors to create web articles as a science writer.

As a way to gather information that will help you choose a research theme in the future, conduct interviews with professors of your favorite laboratories, and create articles about their research. Finally, let's publish them on university's website.

Teacher : Prof. Nakase

Special lecturer :

Ms. Motomura (Journalist, Mainichi Shinbun),
Mr. Shimizu (Free Editor, Writer)
