

# Exercise Science

## Subject:

① Exploring the Underlying Mechanisms of Exercise by Employing **Molecular Biology Techniques**.

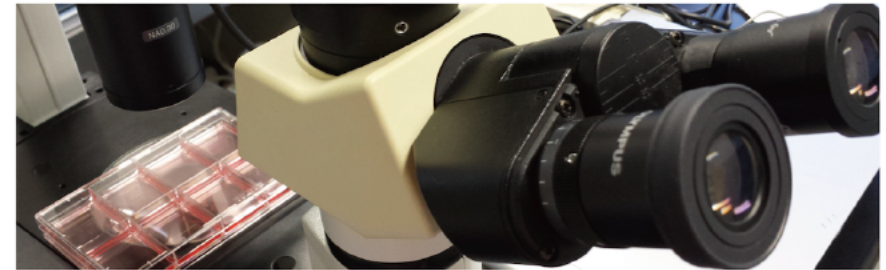

② Manipulation of Muscle Cell Functions by **Electrical Stimulation**

We welcome motivated students  
who are interested in  
**Cell-based medicine/technologies**

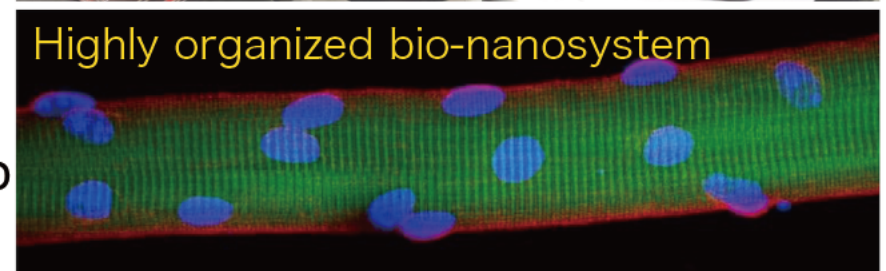

Contact: **Makoto Kanzaki**, Professor  
(Biomedical Nano-science)

Tel: 022-795-4860, makoto.kanzaki.b1@tohoku.ac.jp

- Qatar 3 (Thursday) 1st meeting 10/5 16:20-
- 3 students are acceptable
- Admin.BLDG 1F,  
Rm#110
