

# The challenge of environmental purification - cesium captures as an example

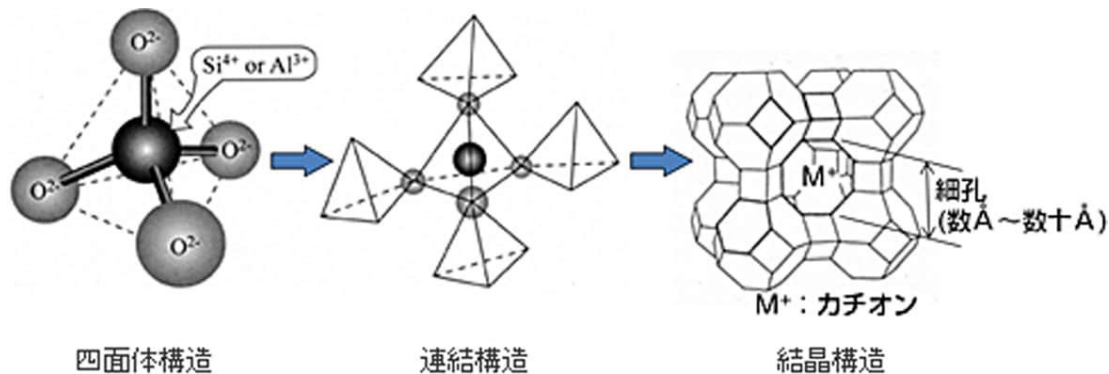

Instructors: Prof. Masayuki Watanabe, Assoc. Prof. Taiji Chida, and

○ Assist. Prof. Tsugumi Seki (022-795-6338, [tsugumi.seki.a5@tohoku.ac.jp](mailto:tsugumi.seki.a5@tohoku.ac.jp))

from Dept. Quantum Science and Energy Eng.

Meeting place: Quantum Science and Energy Eng. research building (campus map A 40), room 413

Date and Time: 16:30, Tuesday, 6th October

Atomic Absorption Spectrometry

Trying to sorb cesium ions  
from cesium solution using zeolite.

Scanning Electron Microscope

Digital Microscope
