# Notice for Onagawa Nuclear Power Plant visiting tour

---

After the Great East Japan Earthquake at 11th March 2011, the impression on nuclear energy had changed substantially. However, we should not forget the procedure of the accident, and achievement from overcoming the great disaster. On purpose to spread the precise scientific knowledge and improvement of enhanced safety about nuclear energy and radiological countermeasure, we contrive a visiting tour for Onagawa Nuclear Power Plant (NPP). Even the Onagawa NPP is the closest NPP to the seismic center of the earthquake, it shut down safely after the earthquake and become a shelter for the local victim. We are grateful to take you to visit the site and experience the true story about the Onagawa NPP.

- Date                    15<sup>th</sup> March 2019 (Friday)
- Destination        Tohoku Electric Co., Inc. Onagawa Nuclear Power Plant
