Overview of the Teijin Scholarship Foundation

Teijin Ltd. Founder.
Seita Kumura
(1880-1951)

The Teijin Kumura Scholarship system was started to commemorate the 35th anniversary of Teijin Limited's founding in 1953 and to honor the achievements of Seita Kumura, who established rayon manufacturing technology in its own right and is known as the "father of the Japanese rayon industry". The purpose of this Scholarship system is to cultivate young engineers and scientists who would succeed to and develop Mr. Kumura's spirit of creative R&D and contribute to the development of our nation and society and the creation of culture. In July 1954, the company established the foundation "the Teijin Scholarship Foundation" for the scholarship system in order for the further development of the system. With its transition to public Interest Incorporated Foundation, it has been accredited by Prime Minister in October 2011.

The essential spirit that has permeated the system since its establishment has not changed. The system is not run for the sake of one company and takes as its central aim the cultivation of the human resources that will be responsible for the development of national society.

Because of this aim, recipients of scholarship loans are excused from repayment if they are involved in research at a university or public laboratory after graduation. In addition, scholarship loans are recognized if an applicant has done well at school, irrespective of economic conditions, etc., in order to cultivate the researchers who will be responsible for the science and technology of the future. Furthermore, since its founding, this system has never set mandatory restraints and has firmly maintained the essential qualities of the foundation. Until this point, about 1,600 people have been active in university research organizations and private companies.

1. History

June 1953

Teijin Limited established an educational scholarship system as a project to commemorate the 35th anniversary of the establishment of the company.

July 1954

The Education Minister permitted Teijin Limited to establish the Teijin Scholarship Foundation. The foundation continues to the present day.

October 2011

With its transition to public Interest Incorporated Foundation, it has been accredited by Prime Minister.

2. Aim

The foundation aims to cultivate human resources who will become aware of their mission as scientists and engineers and be responsible for the development of our nation and society and the creation of culture.

3. The Origins of the Names "Teijin Kumura Scholarship" and "Teijin Kumura Scholar"

The scholarship awarded by the foundation was named the "Kumura Scholarship" and the recipients of the scholarship "Kumura Scholars" in order to honor the achievements of Seita Kumura, who was the first person in Japan to establish rayon manufacturing technology and subsequently built the foundations for the development of the rayon industry, and to communicate those achievements eternally to later generations. To mark the 50th anniversary of this scholarship system, they have been renamed the "Teijin Kumura Scholarship" and "Teijin Kumura Scholars" respectively.

4. Project Details

Teijin Kumura Scholarship loans are awarded to graduate school students in technology-related disciplines.

5. The total number of scholarship recipients

1,689 Teijin Kumura Scholars from the first year of the program (1953) to the 69th (2021).

"Young people go overseas!"

~ Message from a Nobel Prize Laureate in Chemistry (2010) Dr. Ei-ichi Negishi ~

When I joined Teijin in 1958, Shinzo Oya the president at that time told, "Young people must go overseas. You will be able to speak three languages in 30 years, if you learn one language in 10 years. Then you will become world-class talent." The starting point that I was able to walk on such a way is in the word of President Oya.

In the field of chemistry, the competition is worldwide, and our playground has extended across the world. Now, you have to look for the professor from the world and aim for the top in the worldwide competition. For the young people like you, I suggest you to go overseas aggressively.

When you find your own "Dream", please challenge it thoroughly until the truth is investigated. I look forward to your great success in the future.

*This message was contributed in November 2013.

About Teijin Group

Since its establishment in 1918 as Japan's first rayon manufacturer, the Teijin Group has ceaselessly transformed itself for over 100 years. As a unique enterprise that combines three different business domains of materials, healthcare and IT, we are developing business that meets the needs of society for today and tomorrow and working towards the realization of a sustainable society by delivering solutions focused on the three fields of environmental value, safety, security and disaster mitigation, and demographic changes and increased health consciousness.

Society is rapidly transforming with evolution of technology just as the global spread of COVID-19 has caused major changes around the world. Amidst this rapidly changing business environment, the Teijin Group aims to be a pioneer or a "Trend-setter", that contributes to enhancing the quality of life by anticipating the values that society expects and responding agilely to them. In order to further accelerate the creation of new values, we will promote diversity and inclusion so that all of the employees with different values and experiences can maximize their potential.

A spirit of venture has been strongly rooted in the DNA of the Teijin Group ever since our founding. As a Human-centric company, we will continue to pursue ceaseless evolution and ambition, and aim to become a company that supports the society of the future.

Tips on Applying for Scholarships

Education and Student Support Department

Student Exchange Division

International Education Section

2019.02.01

1. Before applying

- Read the application guidelines carefully to determine whether or not you meet the requirements. Be sure to take note of any obligations for scholarship recipients in addition to the application requirements and details of the award. (E.g. mandatory attendance at conferral ceremonies and exchange events, submission of periodic assignments to the scholarship organization, etc.)
- Make sure you have all the required documents on hand. In particular, many students forget to submit academic transcripts from their previous curricula.
- If you have applied to other scholarship organizations via either university recommendation or direct application, you cannot apply for any further scholarships, even if you do not yet know the results of your other applications. (Except in cases where both scholarships permit receipt of multiple scholarships at the same time.)
- Screening methods vary depending on the organization. If there is an interview, note the travel expenses, location, date/time etc., and be sure you will be able to attend.

2. Application documents

- Do not reuse documents from previous applications, even if you are applying to extend a current scholarship. Always prepare new documents.
- Do not use erasable pen (e.g. Frixion); always fill out application forms with a black ballpoint pen. (Application documents written in erasable pen cannot be submitted to the scholarship organization.)
- During the screening process, your application documents will greatly influence the impression you give. Fill out all forms neatly so that they are easy for the evaluators to read.
- If you make a mistake, do not use corrective tape/fluid or cross out the mistakes. Prepare a new form instead.
- Do not abbreviate your undergraduate/graduate school's name; enter the full name.
- Be sure to read and follow all notes and instructions on filling out the forms.
- As a matter of courtesy, fill in at least 70-80% of the space provided for each short-answer/essay question.
- After you have finished, double check your application to make sure that no items are blank. In particular, enter answers even for items not applicable to you, e.g. "None" (or "0" for amounts) etc.
- *If outputting data from Excel, check to make sure all characters fit within the provided spaces.

3. Other

- If you have any questions about the application requirements or how to fill out the forms, please inquire with the person who handles scholarships for your department. Do not try to individually contact the scholarship organization.
- Note that recipients of the President Fellowship or other scholarships that pay tuition may not be able to apply for a tuition exemption for the duration of that scholarship. Be sure to check with the person who handles scholarships for your department.
- If you plan to apply for a scholarship directly (without going through the university), or to extend a scholarship, you must contact the person who handles scholarships for your department and inform them beforehand.

*This form does not need to be submitted, if you have submitted anytime in **October 2021 or thereafter.**
